PROFESSIONAL STYLING

GREAT NEW

CERAMIC

Ceramic barrel has become one of the most desirable features in a modern styling brush.

Ceramic barrel allows for better heat distribution when used with today's professional high output blow dryer. It allows for quicker and more effective hair styling.

SUPER HIGH HEAT BRISTLE RESISTANCE

... up to 200°C !!

We have listened to our customers and we made the improvement they asked for.

Now the brushes are made with special super high temperature resistant bristle which will endure temperatures up to 200°C

ideal for blow drying
smooth styling

NEW LONGER COMFORTABLE HANDLE

NEW HANDLE DESIGN

We have completely redesigned our new handle. It is now much longer so the grip is much more comfortable than before.

The upper part of the handle "the cup" is now much smother. "The cup" is a part of the handle where a thumb is usually placed.

The handle is still made of one piece of wood. It is very important because this means that it will not catch any hair, unlike the two piece handles which sometimes pull out customer's hair!

4 SIDES FLATTENED HANDLE

Instead of completely round handle we made it flattened on all 4 sides.

As we know, when styling the hair, hairstylists make specific turning movements.

Flattened areas of the handle help the brush to stay in good grip during those turning movements.

They protect from slipping accidentally while being held in a wet hand.

STRONG BARREL TO HANDLE ATTACHMENT

Over many years of experience we have developed a reliable techniques of joining all brush parts together. Especially in barrel to handle and top cap to barrel area. This has always been an important aspect of quality, so we pay a lot of attention to this point during the manufacturing process.

Flexible nylon bristles gently penetrate the hair, providing optimum grip and control

"SOFT GRIP"

SOFT RUBBER FEEL HANDLE FINISH

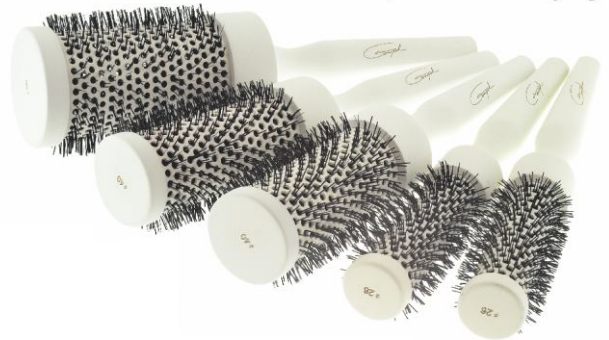

Very special, new finishing gives a feeling of soft rubberlike material.

It looks great and also gives extra strong grip and comfort during professional hair styling.
